

Fine Souvenir

Washupito's Tiendita

CACTUS-B

[Call for Pricing](#)

Seculen Cactus Plant will make a environmental friendly souvenir. It has so many benefits, like :

- Easy to take care. Cactus loves sunshine. However, you can put it in your room without sun light & water for 1 week, then put it under direct sunlight for one full day before moving it back into room.
- When you put cactus nearby your computer monitor, it will reduce monitor radiation & electro magnetic radiation.
- Help cleaning the air in a room.
- Release tired eyes after looking too long on television or monitor, just by looking at it for a while.
- Participating in making a greener world.

Really a gift of hope for a better future :)
